

Energy sector: CMS Consequential Loss Guide, third edition now published

International · 18/12/2025

The CMS Expert Guide on Consequential Loss Clauses in the Energy Sector [returned in early September](#) expanded, refreshed, and more comprehensive than ever.

The guide has now been extended with two new jurisdictions – Norway and Saudi Arabia. In addition, South Korea, Hong Kong, Romania and Switzerland have all been updated to reflect the current legal positions.

In a world where the scope, meaning and enforceability of ‘consequential loss’ exclusion clauses remains a source of uncertainty and debate, our guide seeks to navigate this complex landscape. Whether you are negotiating contracts, managing risk, or resolving disputes, the guide seeks to deliver what you need to stay ahead in key jurisdictions.
